

Make your Future: Get Involved!

Join the
North American Young Generation in Nuclear!

Kick-off Meeting
Thursday February 21st, 2002
4:00 pm to 5:00 pm
Meeting Location
Light Refreshments will be served!

You are cordially invited to meet members of the Virginia section of the North American Young Generation in Nuclear (NA-YGN) from Dominion, on Thursday February 21st 2002, from 4:00pm to 5:00pm. The goal of this meeting is for you to learn more about the NA-YGN, in particular our local California section that is already active in New Orleans and Idaho Falls, and to discuss the possibility of expanding this Illinois section of the NA-YGN to the Denver area.

NA-YGN was established in 1999 by a small group of young professionals across North America. Our mission was (and still is) to unite young professionals who believe in Nuclear Science and Technology and are working together throughout North America to share their passion for a field that is alive and kicking.

This mission has a number of goals:

1. **Recruit** talented young people into nuclear careers.
2. **Retain** young nuclear professionals in the nuclear industry (in whatever field) by providing professional development opportunities for them (a career versus just a job).
3. Facilitate the **transfer of information** and know-how between the pioneers of the nuclear industry that are starting to retire, and the new generation of nuclear professionals.
4. Be proactive and **educate** the public, the media and the policy makers about the true impact that nuclear science and technology have in their lives.
5. **Unite** the different fields of nuclear science and technology.

In this meeting we will discuss:

- What does NA-YGN have to offer: how can NA-YGN help you, your company and the nuclear community in general?
- What do we need to do in order to expand our Virginia section of the NA-YGN to the Lynchburg area?

For more information, please visit our website www.na-ygn.org. If you have any questions please do not hesitate in contacting Someone Smith (888-333-5555 or someone@nuclear.net)

Please let Someone Smith (999-222-6666 or smith@npp.com) know if you'll be able to attend by Monday February 18th, 2002, so we can plan accordingly.
