

## North American Young Generation in Nuclear Program Committee

### Call for Committee Volunteers

NA-YGN is growing and increasing their activities locally, nationally and internationally. As we gained momentum and exposure, our efforts have significantly increased related to supporting a variety of industry conferences. What does that mean? Organizing/Chairing sessions, finding speakers, promoting NA-YGN, acting as a technical paper reviewer, invited as a speaker, coordinating socials, fun-runs and so much more. Supporting industry conferences is a huge opportunity for young professionals who wish to learn more about the industry and network with other industry professionals and executives from all over the world. Conferences and workshops that NA-YGN is heavily involved in include, but are not limited to:

- American Nuclear Society
  - National Meetings and Student Conferences
- Canadian Nuclear Society
  - Annual CNS Meeting
- International Youth Nuclear Congress
- North American Young Generation in Nuclear
  - Annual Workshop
- Nuclear Energy Institute
  - Annual Nuclear Energy Assembly

We'd like to extend the opportunity to all interested members who'd like to get more involved. In addition to committee members-at-large we're looking for nominees for two new and exciting leadership opportunities:

#### **Program Committee Session Lead:**

Ensure that NA-YGN membership is involved or identifying topics that would be of interest to our members. Main focus will be coordinating Chairs, Speakers and Paper Topics as appropriate for each conference.

#### **Program Committee Interaction Lead:**

Ensure that NA-YGN membership has an opportunity to network with other young professionals at the various industry conferences. This includes, but is not limited to coordinating socials, fun-runs, games and booths as appropriate for each conference.

Characteristics of a Lead include an ability to identify actions, manage schedules and people. If you are interested in these opportunities, rest assured, we will ensure you have the appropriate contacts and information to help you with your role.

If you're interested in joining the committee or taking on one of these lead roles, please contact Professional Development Chair Amy Buu at [pd@na-ygn.org](mailto:pd@na-ygn.org).
